An Important Decision.

Washington, D. C., November 14 - The upreme Court to-day rendered an opinion of great Importance to all railroads, fast freight lines and shippers of goods, in the case of the St. Louis Insurance Company against the St. Louis, Vandalia, Terre Haute & Indianapolis railway. This uit was brought by the St. Louis Ir tain cotton shapped at St. Louis in 1226 for Liverpool, under agreement between Weir & Co. and the fast freight line, known as the Erie & Pacific Despatch. The cotton was shipped by the Despatch over the Vandalia line thence over the line of the ny. It was burned at Jersey City while in custody of the Erior allway. The Vandalia line did tot execute a bill of lading, but way billed the freight from St. Louis to to restore the prisoner: "Will you be quiet."

The court: "The question is whether further time ought be allowed coursel."

The prisoner, emphatically: "I don't want that, if the court please."

District Attorney Corkhill insisted that the trial should proceed now. Mr. Robinson pressed his claim for a postponements. Owing to the opposition of Scoville and the prisoner to the application of Robinson for an extension of time the court stated that for the present the case should proceed as far at least as swearing the jury and then he would consider the question of extension. The work of swearing the jury began, the three first presented being disqualified on the ground that they had nother on the ground that he had conscienscious scruples out the subject of a spiral punishment.
